Richardson Timbers

Custom Timbers Since 1949

Richardson Timbers, founded in 1949, specializes in milling wood timbers and producing custom millwork products. We offer Douglas Fir, Kiln Dried Fir, Western Red Cedar, Mixed Hardwoods and specialty exotic timbers.

Our services include saw texturing, surfacing, exclusive TRU-RUF SURFACING, hand hewn finish, custom sizing, siding patterns, precision-end trim and a variety of remanufacturing services for customer materials. We also produce a wide selection of custom manufactured corbels, brackets, rafter tails and timber truss arches.

We combine the craftsmanship of yesterday and over 70 years of experience with the technology of today to produce products that are both bold and beautiful. You can be confident that you, and more importantly, your customers will be pleased and satisfied when our products arrive at the job site. Delivery is available throughout the U.S.

Richardson Timbers is a wholesaler and sells exclusively through our dealer network.

The size of our mill and the dimensions of the timber we can produce are important factors to our customers who are needing large timbers or significant timber footage. With truckloads and carloads of wood rolling into our facility weekly, we have the size and strength to service your needs. We provide delivery throughout the U.S.

We are big enough to handle your biggest orders, yet give attention to every detail of your order.

Facilities in Dallas and Bertram
