RICHARDSON TIMBERS

Custom Timbers Since 1949

Red Grandis

Red Grandis combines warm natural color, straight grain, and versatile performance with Richardson Timbers custom milling expertise. This FSC-certified hardwood is valued for its workability, durability, and suitability for a wide range of interior and exterior applications.

- Straight grain with medium texture and attractive pink-to-reddish color tones.
- Durable hardwood with resistance to fungi, rot, and weather exposure.
- Machines well and accepts glues, stains, and finishes with ease.
- Plantation-grown and FSC-certified from responsibly managed sources.
- Ideal for architectural millwork, decking, cabinetry, and exterior applications.

Designers and builders value Red Grandis for its warm appearance, workability, and reliable performance indoors and out.
